

Tips for Looking After Your Floor

Sensible and regular preventative maintenance will extend the time before refurbishment is necessary and keep the floor looking great.

- **Install good sized floor mats** both inside and outside external doors to trap dirt and grit
- **Install felt protectors** on the base of furniture legs
- **Dust, sweep or vacuum floors** regularly to remove grit that can cause micro-scratches in the floor's surface
- **Remove spills immediately** and spot-clean affected areas using a Bona Trigger Spray and a soft cloth. Never use household cleaners on finished timber or hard surface floors. These may damage polyurethane finishes and make re-coating difficult. They can also dull and damage hard surface flooring
- **Clean the floor on a regular basis using a Bona Spray Mop.** Clean high traffic areas such as kitchens more frequently. Never 'wet mop' a timber floor. Too much water can have an adverse effect. A light spray mist of non-toxic cleaner such as a **Bona Floor Cleaner** is all that is necessary
- **Mats or rugs** should be considered In very heavily trafficked areas, such as entrance halls and kitchens to reduce surface wear. These should be permeable to allow the floor to 'breathe'
- **Avoid creating indentations** in the floor. Common causes are stiletto heels and pet claws
- **Use a floor refresher or polish such as Bona Timber Floor Refresher or Hard Surface Floor Polish** if your floor starts to lose its sheen. This will revive surfaces to give a newly finished look and continued protection against wear

If your timber floor ever needs refinishing contact a Bona Certified Contractor for expert advice. A full list of BCC members is available at bona.com.au

Bona Brings Out the Best in Your Floors

Based in Sweden, Bona is the world leader in non-toxic floor finishes and care products for timber and hard surface floors. Flooring professionals and homeowners in more than 90 countries have relied on Bona since 1919, with Bona products now protecting millions of square metres of stunning floors in palaces, museums, sporting arenas, art galleries and homes worldwide.

GREENGUARD Certification

Bona's floor care products are GREENGUARD indoor air quality certified, which means they are safe for use around your home, your family and your pets. GREENGUARD certification strives to help reduce chemical exposure by connecting people to healthier products they can trust.

Floor Care Guide

Quick & easy guide to keep your floor looking great throughout its lifetime

Bona®

Great floors are as easy as 1, 2, 3...

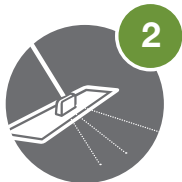

No mixing, no measuring, no mess. The Bona system offers a guide to dusting, cleaning, maintaining and protecting your floors. Follow this 3 step process to keep your floors looking great for a lifetime.

1

Dust

Remove dust and grit from the floor using a Bona electrostatic Microfibre Dusting Cloth, or by gently vacuuming.

2

Clean

Lightly spray and wipe using the Bona Spray Mop with Microfibre Cleaning Pad. For stubborn spots, heel marks or sticky spills, spray and leave for a few moments before wiping.

3

Maintain

Maintain your floor to bring back its shine and revive scratched and dull surfaces. Use Bona Timber Floor Refresher on timber floors, or Bona Hard Surface Floor Polish on hard-surface floors.

Bona timber and hard-surface floor care products are the non-toxic choice for your floor.

Bona Non-toxic Floor Cleaners

Timber Floor Cleaner

- Designed for sealed timber and cork floors
- Fast drying, ready to use formula
- No streaks, no dulling residue left behind

- Fast drying, ready to use formula
- No streaks, no dulling residue left behind

- 2.5 Lt Refill
- 1 Lt Spray Pack
- 850 ml Mop Refill

Bona Complete System to maintain & protect

Spray Mop

The Bona Premium Spray Mop is an all-in-one solution and comes ready to use with cleaning solution and cleaning pad. Ergonomic and simple to use, with an integrated 850 ml cleaner cartridge and trigger spray function. Forget filling up a bucket, just spray and clean in one sweep. The cleaner cartridge can be refilled from the handy 2.5 Lt refill pack or replaced with any of the Bona cleaning cartridge range. Use with Bona Cleaning Pad to remove 99% bacteria.

MicroFibre Dusting Pad

The Dusting Pad is super electrostatic and offers quick, effortless dusting to lift dirt and grit and prevent the floor being scratched. Machine washable.

MicroFibre Cleaning Pad

The Cleaning Pad is a tough and re-usable pad that is gentle on floors. The pad can be machine washed and reused more than 500 times without losing its effectiveness. It will remove 99% of bacteria from the floor.

MicroFibre Polish & Refresher Applicator Pad

The Applicator Pad features microfibre threads to give an even coat and ensure a smooth, fast application.

MicroFibre Deep Clean Pad

The Deep Clean Pad with patented PowerLoop technology gently breaks apart and loosens the toughest dirt build-up. It will remove 99% of bacteria from the floor.

Timber Floor Refresher

Refresher revives scratched and dull timber floors to restore a newly finished look and provide continued protection against wear.

Hard Surface Floor Polish

Polish brings a new shine to the floor surface whilst offering extended protection against wear.
