NATURAL
WOOD
FLOORING

Dear friends of the beautiful living!

Real life does not come from the glossy brochure. Because in real life there are sometimes rainy days, footprints and dirty dog paws. In real life, one is happy about a flooring that endures everything and stays nice year after year. You have found what you are looking for: Your natural wood floor ondo by Admonter leaves room for the value in life - **Your home feeling!**

A wood flooring manufactured in Austria

ondo is a beautiful, natural product with unique characteristics.

There are planks with lighter and darker colour tones, soft and strong grain patterns. Just like nature.

- natural oiled easy care

GRADINGS - COLOUR OF FILLER

- **premium** – soft, in principle knotless appearance, basically no filled knots
- **select** – soft structural appearance with only a few knots, filled with a brown filler
- **placid** – knotty grading, filled with a brown filler
- **vivid** – knotty rustic grading, surface full of natural character, filled with a black filler
- **allegro** – rustic grading, surface full of natural character and contrasting colour variations, filled with a black filler

FORMAT

- 13 x 154 / 158 x 1850 / 2000 / 2400 mm
- 13 x 188 / 192 x 1850 / 2000 / 2400 mm

INSTALLATION SYSTEM

- lock-it

NO FINAL COAT OF OIL REQUIRED AFTER INSTALLATION!

You'll find further information in the ondo maintenance & installation instructions and at www.ondo-naturholzboden.at

All floors of the ondo range are ideally suited for under-floor heating systems. In this case, we suggest a full surface stick down installation with Admonter elastic adhesive. We recommend hot-water underfloor heating systems set at low temperature. ondo can also be installed as a floating floor. More information at www.ondo-naturholzboden.at

SKIRTING

- veneered skirting with spruce base material
- dimension: 40 x 16 x 2500 mm
- also available in white

ADHESIVE

- high quality, solvent free adhesive
- easy to spread

CARE & MAINTENANCE

The durability and wear resistance of any wood floor is highly dependent on regular, correct care and maintenance, which if carried out correctly, will add years to the life of your floor. For care & maintenance we recommend our cleaning products. You will find more information in our laying & maintenance instructions and at **www.ondo-naturholzboden.at**

TIP

It is particularly important to sort the individual planks by colour prior to installation. In doing this, it is possible to deliberately influence the overall appearance of the room. An even, homogenous effect can be created by merging planks with similar tones. However, by placing planks with lighter and darker tones alongside each other, the contrast will create a rustic effect. Indeed, it is possible to create diverse effects depending on how the floor planks are installed.

We grant a 30 year warranty on hidden defects in the floor based on material and manufacturing defects.

ondo natural wood flooring is a 100 % natural product. A picture is never a substitute for the „real thing“. For this reason we recommend a visit to your nearest ondo by Admonter flooring dealer.
