BALTIC WOOD

EXPERIENCED MANUFACTURER
OF EXTRAORDINARY WOODEN FLOORS

› KNOWLEDGE AND EXPERIENCE

- More than 20 years on the domestic and international markets
- Presence in 62 countries
- Almost 30 million m² of flooring sold

› CREATIVE PERFECTION

- Modern and sustainable three-layered floors
- Precise joint and wood surface finish
- Factory guarantee of durability and structure

› SPECIAL OFFER

- Wooden floors in 5 unique collections
- A selection of European wood species, which can be additionally stained, brushed, oiled and bevelled
- Wide array of sizes and finishes

› UNIQUE TECHNOLOGY

- Baltic LOC™ system – easy adhesive-free installation
- SQUARE EDGE system – perfect element fit in bevel-free floors

› SUPREME QUALITY

- The product complies with the highest quality standards, bearing the following certification: ISO 9001, ISO 14001, M1
- 30-year guarantee for the structure of all floors on offer

› RESPONSIBLE MANUFACTURER

- Use of raw materials from FSC-certified forests
- 100% rational recycling policy
- Use of eco-friendly varnishes, natural oils and adhesives with very low formaldehyde emissions (class E1)

› COOPERATION WITH INDUSTRY LEADERS

- In the scope of production technology
- In the scope of production components
- In the scope of adhesive-free joints

Melody™ Collection

FLOORS – A UNIQUE COMBINATION OF THE MODERN AND THE CLASSIC

A collection of wooden floors in the pattern of 1-row full plank composed of oak and ash. Each model in the collection strikes with its delightfully classical beauty enhanced with mat varnish, ECO oil, and sophisticated hues thrown into relief by varicoloured stains.

The offer includes smooth surfaces (Square Edge), the fashionable brushing effect, as well as bevelled and micro-bevelled boards. The floors can be installed over a floor heating system.

FLOOR PROTECTION

1.

Regularly (at least twice a week) clean the floors with a vacuum cleaner and a special brush attachment or with a soft sweeper. Floor mopping must be preceded by vacuum-cleaning.

4.

Regularly cut the claws of your pets, which will protect your floor from scratches. Remember to wipe clean the paws of your dog every time you come back from a walk – this way you will keep away dirt and sand from your interiors.

2.

Clean the wooden floors with a moist and not wet mop. The excessive amount of water can cause swelling, warping or discoloration of the floor. Accidentally spilt liquids must be immediately wiped up, otherwise the stains will become hardly removable. Use only Baltic Protection System agents. Do not apply waxes, as they can easily matt the wooden surface.

5.

Doormats – a mixture of water and sand, coupled with intense wear of the floor brings about the same effect as rubbing the floor with sandpaper. Doormats placed at the front door and the exit to the terrace protect the floor against dirt. Keep doormats clean – replace them from time to time.

3.

Chair or furniture legs can scratch the floor surface. Use protective caps – chair and furniture legs should be covered with protective felt pads and as for swivel chairs, choose ones with special castors intended for wooden surfaces. Avoid impermeable rubber mats and carpets.

6.

Keep an optimal air humidity level in the rooms, 30–60% at the temperature of 20°C. In winter, when the air humidity level drops, use air humidifiers. Remember that wood will naturally tend to achieve the state of hygroscopic balance – it is important to air the rooms from time to time.

FLOOR + SKIRTING = PERFECT COMBINATION

In particular cases production time can last up to 6 weeks.

SURFACE FINISHES OF BALTIC WOOD FLOORS

LACQUER

- matt, semi-matt and supermatt
- lacquer system consisting of 7 layers hardened with UV rays
- solid and durable, homogeneous gloss
- pre-hardened, perfectly cover the surface for many years
- fully ecological, based on acrylic and polyurethane resin
- safe and hypoallergenic
- easy to maintain

OILS

- ECO
- transparent or coloured
- oiling system consisting of 2 layers
- they permeate the wood, impregnating it slightly
- durable and safe
- extremely easy to renovate the whole floor or to carry out spot surface repair
- let the floor „breathe“
- enhance the natural character of wood

NOTE:
Baltic Wood S.A. reserves the right to change the technical parameters of the products on offer as well as to discontinue them.

Baltic Wood floors are manufactured only from natural wood, and that is why the shade, occurrence of knots, ring pattern and grain structures of particular elements – boards, slats etc. – can differ from one another as well as in relation to the photos included in all Baltic Wood marketing materials. The natural variation can be noticed when comparing the final product with the samples presented at the exposition.
The wood variety is a natural feature of this noble raw material, determining its beauty and uniqueness.
